

MicroSetNCure

ADMIX by MicroGlass

WHY POOL BUILDERS TRUST MicroSetNCure

BENEFITS

COLOR UNIFORMITY & FASTNESS

Evenly distributes pigment for richer, more consistent interior finish color. Also promotes color durability and fastness.

REDUCED CALL BACKS

Pool Builders consistently report less complaints and call backs due to plaster dust, craze cracks, color loss, and mottling.

EASIER START UP

Achieve cheaper and faster startups by controlling calcium hydroxide and minimizing PH spikes -- saving you time and money on startup.

REDUCED CRAZE CRACKING

Water based formula promotes even hydration and curing, which significantly reduces craze cracking (egg-shelling, crazing, spider cracks).
